I apologize for sending to wrong address first.

Sorry!
---

Dear Marc,

As you are undoubtedly aware the Massachusetts Against Hewlett Packard campaign is bringing a resolution to our Cambridge City Council on April 23. Obviously this is a "hot issue," and groups on both sides feel strongly and will try to influence the city council. With this note, I want to make a strong plea for your support of the resolution.

International affairs are not normally the business of the city council, although Cambridge has taken a stand, almost always on what is now clearly the right side of history, on quite a few other such issues (e.g. South African apartheid, Saudi human rights violations). In this particular case, the international issue is also local, as Cambridge can stop buying HP products and supporting a company that is very tightly implicated in the oppression of the Palestinian people. Cambridge's accepting the resolution and supporting the boycott of HP would be a strong statement in favor of human rights.

Thank you for your attention to this note. I hope for your support of the MA against Hewlett Packard resolution.

Ann
